Brake Motors

Flame Proof Motors

Others

Electric Motors :

We manufacture standard 3 phase Induction electric motors upto 100 HP in 280 M frame size and special tailor made motors in the same range

Our Product Range is:

- **Flame Proof & increased safety motors (Standard & Tailoremade)**
- **Brake Motors**
- **Crane & Hoist Duty Motors**
- **Textile Motors / Ring frame motors / Carding Loom motors**
- **Dual & Multiple Speed Motors of ratio like 1:6**
- **Lift Duty Motors**
- **Inverter Duty Motors (Optional Force Cooling Attachment)**
- **DC Motors**
- **Single Phase Motors**
- **Vibrator Motors**
- **Torque Motors**
- **Special Features available on request**
- **Cooling Towers Motors**
- **Low Vibration Motors, Geared Motors**
- **Energy Efficient Motors**
- **Hazardous Atmosphere Motors**

Mecahnical features of electric motors:

Specail mountings, shaft material, shaft extensions, key way, paint, nameplate design, Splinds.

Electrical features of electric motors:

Supply voltage option (160 to 600), multiple voltage, variation in supply frequency (60Hz) polarity options (10, 12, 14 poles), specail protection (PTC themistor) and insulation (class H or other), Heater 45°C-60°C Ambient temp.
